

Sinclair Broadcasting, if it is acting in the public interest in broadcasting their anti-Kerry program then they must act in the public interest by giving Senator Kerry equal time. Mr. Bush has spent this campaign filling the heads of Americans with lies and half-truths. As a New Yorker, September 11th was an unimaginable horror, but the idea of 4 more years of a Bush administration frightens me so much more, for with him we stand alone amongst the nations of the world. The terrorism we face with him as president is too much to contemplate. As my representatives in Congress make our voices heard before the FCC.
